

# Cribbage Scoring Combinations During Gameplay

Each player plays one card at a time, pegging points as they play.

Card Combination/Play	Points Scored	Example
Last card played (total under 31)	1	The total is 29 and you play an ace for a total of 30.
Last card played (total exactly 31)	2	The total is 25 and you play a six for a total of 31.
Cards that add up to 15	2	Ten and five or a two, three, and queen
Pair of cards (two cards of the same rank)	2	Two of clubs and two of hearts or queen of spades and queen of diamonds
Run of three (regardless of suit)	3	Ace, two, three or jack, queen, king
Run of four (regardless of suit and order as long as cards are consecutive)	4	Ace, two, three, four or seven, nine, six, eight
Run of five (regardless of suit and order as long as cards are consecutive)	5	Ace, two, three, four, five or three, five, six, four, seven
Three of a kind	6	Three of spades, three of diamonds, and three of hearts
Four of a kind	12	Three of spades, three of clubs, three of diamonds, and three of hearts
Four-card flush (four cards of the same suit, regardless of sequence)	4	Queen, ten, four, and three of diamonds
Five-card flush (all cards, including the starter card, are the same suit)	5	Queen, ten, four, three, and ace of diamonds
Nobs (the jack in your hand or the crib is the same suit as the starter card)	1	Starter card is a nine of spades, and you have the jack of spades
Nibs (also called "his heels"; dealer turning up a jack as the starter card)	2	Dealer turns up a jack of diamonds as starter card
